

Fort Wayne Sentinel.

SATURDAY, OCTOBER 22, 1859.

Rebellion at Harper's Ferry.

We give up a large portion of our columns to the accounts of an insurrection at Harper's Ferry, the capture of the U. S. Arsenal by the notorious Osa-watomie Brown, late of Kansas, attempts to excite a servile rebellion in Virginia and Maryland, and the capture of the rebels. How far the abolition party is directly identified with the treasonable movement remains to be proved; but it is certain their course in Kansas, their direct aid to such ruffians as Lane and Brown, and the encouragement they received in their hostility to the Government, have been the main causes of the present rash attempt. It is the legitimate effect of the training he received in Kansas, and the treasonable views boldly promulgated by the abolition party. It is the natural result of the lawless doctrines preached and practiced by the fanatic party, and should serve as a warning to all good citizens to stand aloof from such a dangerous party. The letters found in Brown's possession, the ample preparations he had made, the large quantity of arms from a Massachusetts manufactory, all show that he had numerous and influential backers, and though it may not be possible positively to prove, that these confederates were enough to sustain any reasonable person that a portion at least of the abolition party are justly chargeable with the enormities committed by these outlaws.

The Convention to alter the Constitution.

This scheme has been defeated by an overwhelming majority. Every county from which we have seen returns gives a majority against it, in some cases as much as eight or ten to one. All right. We do not need the labors of mediocrities and constitution tinkers at this time.

DAVID D. OWEN, the State Geologist, is in our city this morning on his geological reconnaissance of the State. He leaves this evening, but will return in four or five days. Any person wishing to have soil or mineral analyzed, or requested to forward specimens to him, care of Mr. Dillon, Indianapolis.

Noted.

The telegraphic report that the President was about to nominate a libel suit against Forney for remarks he made in his press on the occasion of the death of Broderick, turns out to be only another telegraphic lie, intended to injure the President, or give Forney a little cheap notoriety. There is no truth in it. The President informed a friend, since the report was published, that he had not read the article, and did not intend to read it, and did not care to read it.

Ohio.

The Republican majority in Ohio proves only to be 10,000, which is 7,000 less than the Republican majority last year. In fact, the Republicans are now in a minority in Ohio, and the Democrats are now in a majority. The whole of the State is now in a minority, and the Democrats are now in a majority.

Indiana.

As far as heard from the returns from Indiana, are rather favorable. In about half the State, Douglas, [?] for Governor, gains 675 over the vote of last year, when the State gave 2,000 Republican majority. We also gain in the Legislature, 12 Democrats and 10 Republicans are elected to the House, 40 Democrats and 10 Republicans to the Senate.

De Kalb Co., Ind.

By the foreign news it will be seen that Mr. Mason, our late Minister to France, is dead. Mr. M. was born in Virginia in 1793, and has filled many public stations with distinguished ability.

Sorghum Molasses.—We are indebted to Mr. J. T. Browning, of St. Joe township, for a sample of very superior molasses from the Chinese Sugar Cane. It is about the color and appearance of golden syrup, and is as sweet as sugar, and is the best syrup to be found in our stores, having the most peculiar taste which is generally noticed in the sorghum molasses. It is decidedly the best specimen which has come under our notice, and shows that Mr. B. has made himself fully acquainted with the best modes of making, cleansing, and purifying this newly discovered article. It is of this quality can be made here, and there will no longer be any necessity of sending abroad for the article.

We understand Mr. Browning has erected a superior mill for crushing the cane, with all the necessary evaporators, boilers, &c. of the most approved kinds, and is prepared to manufacture all the cane that may be brought to him. Almost every farmer in that part of the country has raised more or less of the cane, and the probability is, that they will have all the molasses they require for domestic consumption, and a surplus for sale. A new source of wealth is thus opened for our farmers, which will doubtless add much to the resources of our country.

E. Bostick having bought out the interest of his late partner, Mr. Bostick, is now carrying on the Clothing Business on his own hook, and is prepared to give his customers good bargains, and supply them with the best of clothing at the lowest prices. He has removed back to his old stand, No. 28 Columbia Street, opposite Meyer's Drug Store.

Laboring Pioneer.

Mr. J. S. Cade, has just commenced a paper with this title at Lagrange Co. It is a good sized paper, well printed, democratic in politics, and advocates the claims of Mr. Douglas with zeal and ability. We wish it every success.

J. N. Fane, of Cincinnati.

Mr. Fane, of Cincinnati, universally acknowledged to be the greatest orator, philosopher, and statesman of the age, is now staying in this city. He will fully present his original philosophy views in a lecture next week.

Mr. Thomas.

Several democratic papers in the south part of the State have spoken favorably of J. B. Mackreuther, Esq., of Clarke Co., as a candidate for Supreme Court Reporter. I believe the Democracy of Indiana could not place upon the State ticket a gentleman who would fill the position with more credit to himself or satisfaction to the Democracy. He is a good lawyer, well educated, a fair writer, and would represent the Democracy of Indiana with credit and honor. He is a man of high character, and is a man of high character, and is a man of high character.

Allen County.

Allen County. The telegraphic report that the President was about to nominate a libel suit against Forney for remarks he made in his press on the occasion of the death of Broderick, turns out to be only another telegraphic lie, intended to injure the President, or give Forney a little cheap notoriety. There is no truth in it. The President informed a friend, since the report was published, that he had not read the article, and did not intend to read it, and did not care to read it.

Not injured by freezing.—Considers them excellent for pie and preserves. By Lewis Brown, from Ohio: Apples for names—Tulpehocken (Hallenwelder). A large green apple covered with russet spots. Name—Tulpehocken. By Charles Hanna, from Ohio: Northern Spy, Smith's Cider, Fall Pippin, White Pippin, Yager Pippin, R. Greening, and two unknown varieties, referred to fruit committee. By C. Wells, an apple for a name: had been cultivated at the Seeck no further. Name—unknown—not the Seeck no further.

By the President: Pear—Oswego Bourse, somewhat tart; a good bearer and an excellent keeper for a fall pear. Good, but not of the best quality. Apples: a variety grown here as the Cumberland, and is called by Mr. Downing—an early winter apple, very much resembling the Red Flower, and like it, the tree has a drooping habit, and the limbs are of a light yellowish cast. High spicy flavor, breakers tender and juicy. Very desirable.

Wine Sap: an excellent apple for a sandy soil—a great bearer, good keeper, tree a fair grower—spreading and not handsome habit.

By F. P. Randall: Egg Plant of an enormous size, weight, also pounds; circumference, thirty three inches.

On motion, the Fruit Committee were requested to prepare a list of apples, best adapted for the climate and vicinity, and to report the same at the next meeting. Adopted.

Meeting adjourned Saturday next 2 P. M. HENRY C. GREY, Sec'y.

A Fast Difference.—When Mr. Broderick was elected to the State Senate by the Democrats of California, the Black Republicans could find no epithet of denunciation to gross and violent to apply to him. He was spoken of as a "Bourgeois," a "Graduate of the University," and a "Graduate of the University." Now, however, that Mr. Broderick has unfortunately fallen a victim to the barbarous doctrine of the "Fast Difference," he is no longer spoken of as a "Bourgeois," a "Graduate of the University," and a "Graduate of the University." He is now spoken of as a "Fast Difference," a "Fast Difference," and a "Fast Difference."

Refugee.—The London Times has another sharp cut on the San Juan 14th inst. Mr. Mason, U. S. Minister to France, died suddenly of Apoplexy.

Zurich Conference.—All the plenipotentiaries were present at the Conference held on the 31st inst. at which time, the articles of the Preliminary Treaty, which the Paris Convention says that the treaty will be signed in a few days, and that it will confirm the division of Lombardy and contain a settlement of the Lombard debt. The affairs of Central Italy will be settled by the Paris Convention.

During Tuesday morning one of Col. Washburn's negroes came in and reported that Capt. Cook was in the mountains only three miles off. The Independent Greys of Baltimore, immediately started out on a scouting expedition, and in two hours returned with two wagons loaded with arms and ammunition found at Captain Brown's house. The arms consisted of boxes filled with revolvers, pistols, etc., bearing the stamp of the Massachusetts manufacturing Co., Chicago, Mass. There was found a quantity of U. S. ammunition, a large number of spears, sharp knives, bow-knives fixed upon poles—a terrible weapon intended for the use of the negroes—with spears, pick axes, shovels, and every thing that could be needed. This proving that the expedition was well provided for, a large party of men were expected to be armed, and that abundant means had been provided for, to meet all expenses.

Chi-na—There is no later news but the Paris Press furnishes the following in regard to the movements of Mr. Ward: The last news from Shanghai establishes, beyond a doubt, the arrival of Mr. Ward at Peking. This diplomatist ascended the Ki Tschou Yunba one of the bran-

A part of the insurgents have left here under command of a leader named Cook, who with a large party of slaves, is supposed to be moving toward Fanninville. Col. Evers, one of the more cautious, is lying in a dying condition, having been slain through the breast. He is now in connection, but has been in Kansas. He says the whole scheme was got up by Brown, who represented that the negroes could rise by thousands, and Maryland and Virginia would become free States. Colonel Shriver, of Fred-

Several slaves were found in the rooms with insurrectionists, but it is not believed that they were there willingly. Indeed Brown's excitement as to the slaves rushing to him was entirely disappointed. None seem to have come to him willingly, and in most cases were forced to desert their masters.

will be able to place the infant confidence in Dr. Hanna's pills doing all that they represent.

It is a purely vegetable, and free from any injurious. Explicit directions, which should accompany each box. Price 41¢. Sent by mail enclosing one dollar to the General Agent, or by one cent Drought in every town of the United States.
